## IVS 3D Inc. - Field Sales Engineer

Portsmouth, N.H – With over ten years in the highly dynamic IT sector of the ocean industry, IVS 3D has emerged as a world leader in 3D analysis and processing in the ocean environment with our award winning Fledermaus software. We are experiencing record growth, and looking to add new members to our team.

Our Field Sales Engineers play a key role in helping existing and prospective clients understand and use our visualization, analysis and processing software suite. This is also a key position in our customer training program, where we offer public and in-house courses geared toward advancing client's knowledge and use of Fledermaus.

The ideal candidate will have a strong geosciences background and the following skills and experience:

- University degree in earth sciences (geology, geophysics, ocean mapping, geomatics/surveying, etc.).
- Very good understanding of geo-spatial software, such as GIS, and application in the ocean environment.
- Demonstrated ability to analyze client requirements, identify technical problems and formulate solutions.
- Excellent interpersonal, presentation and communication skills.

The following would also be an asset:

- Bilingual language capabilities in Spanish, French or other languages.
- Development and delivery of training courses.

Salary and overall compensation are commensurate with experience. This position will be based in Portsmouth, NH, and may require travel up to 50% of the year (domestic and international).

Please send your application to IVS 3D by 28 February 2006 by e-mail to [hr@ivs3d.com](mailto:hr@ivs3d.com) or fax to (603) 766 0485.
